... de la casa

1. GNU/Linux
2. GIT
3. Docker

git

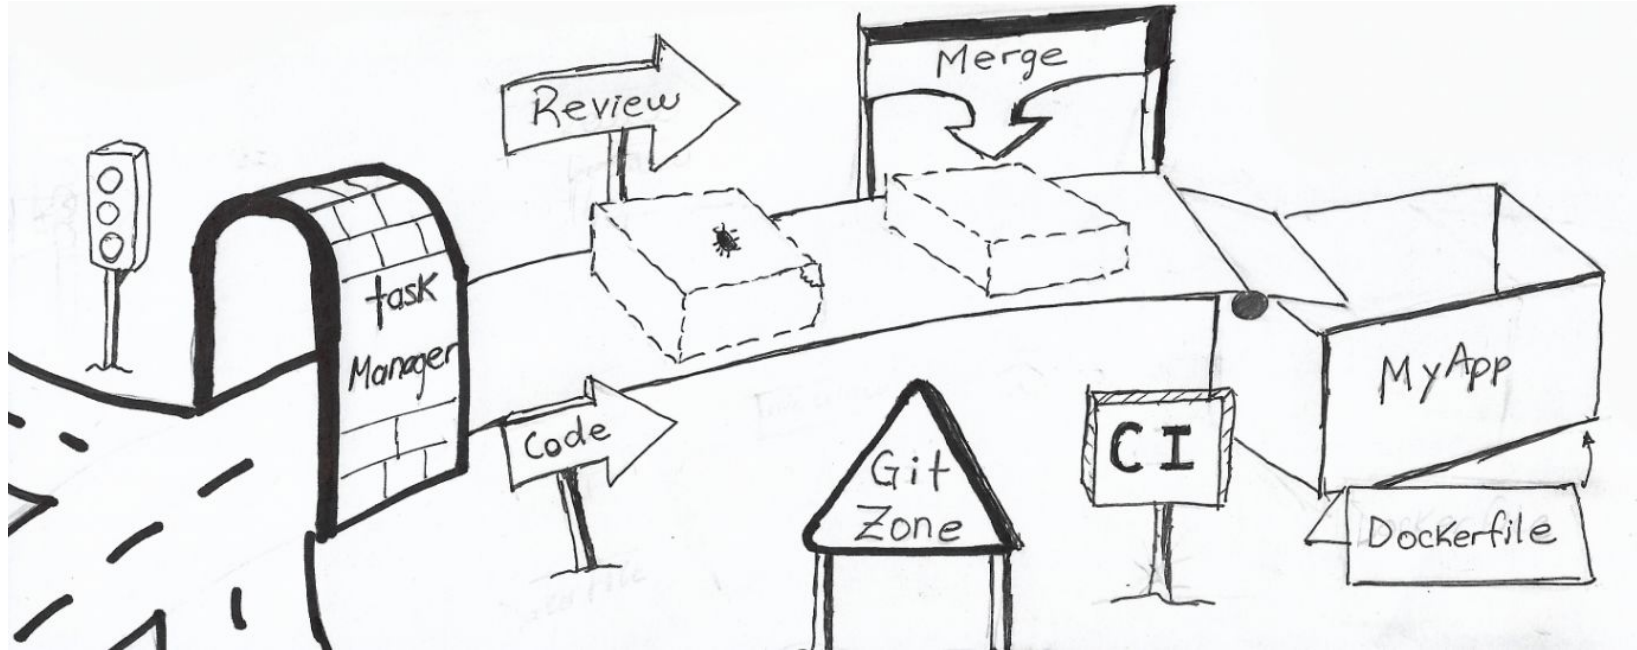

docker

Develop with GIT + Docker

<https://gitlab.com/amlasas/node-seed>

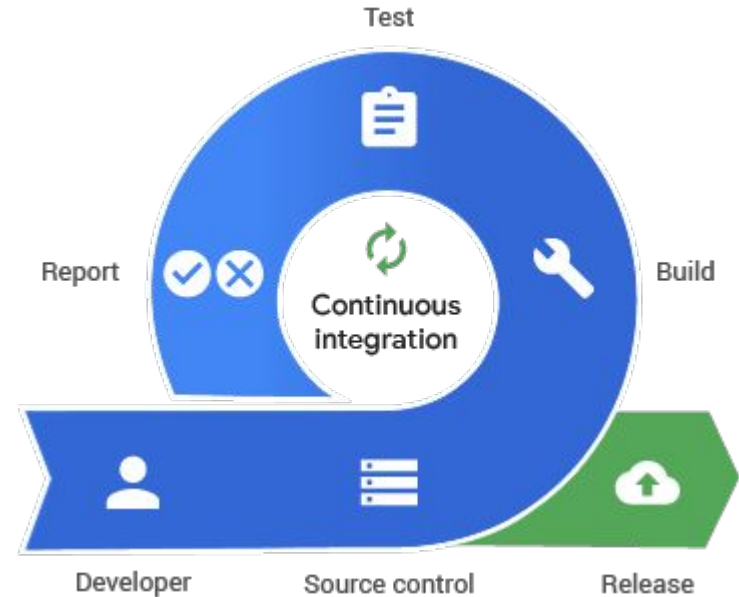

Continuous Integration

Se refiere a la fase de creación e integración del proceso de publicación de software.

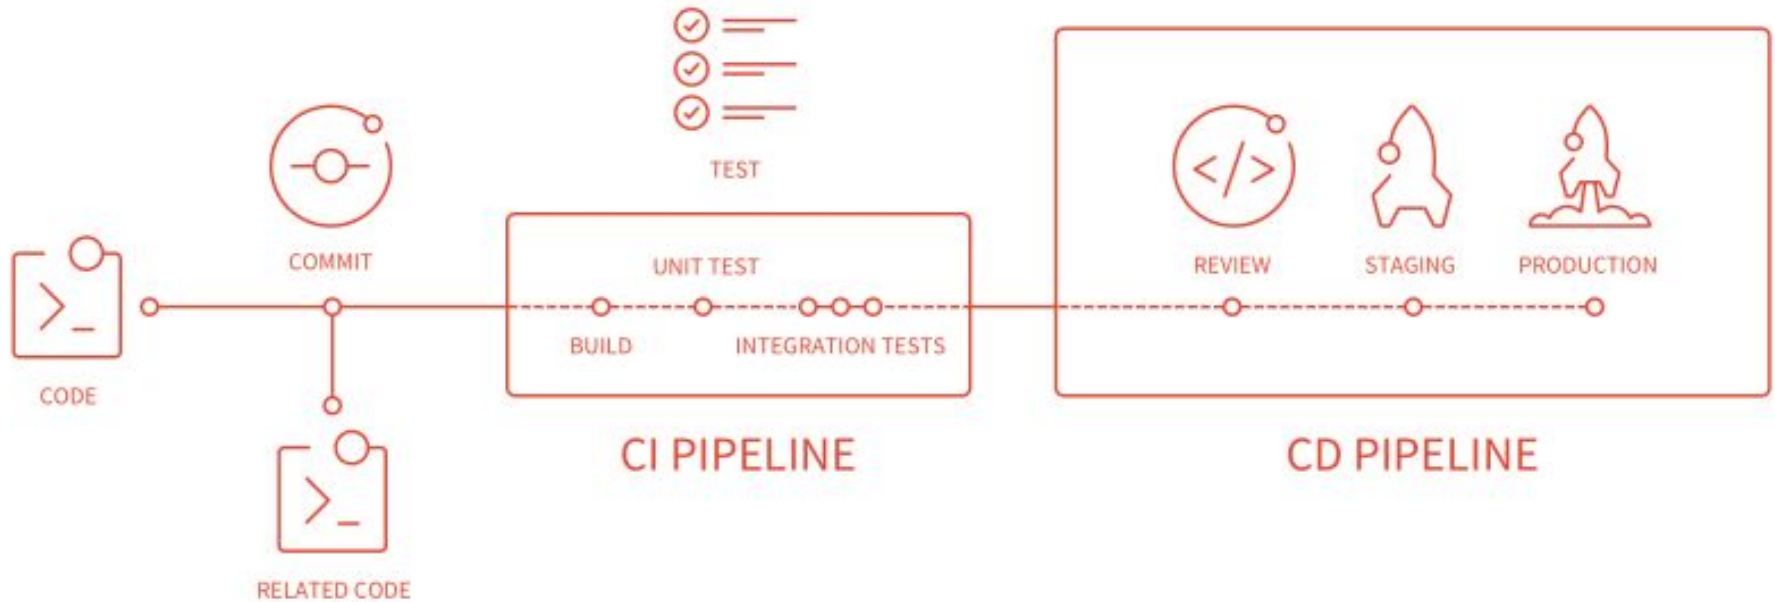

Conlleva:

1. **Componente de automatización:** ej. CI o servicio de versiones
2. **Componente cultural:** ej. aprender a integrar con frecuencia.

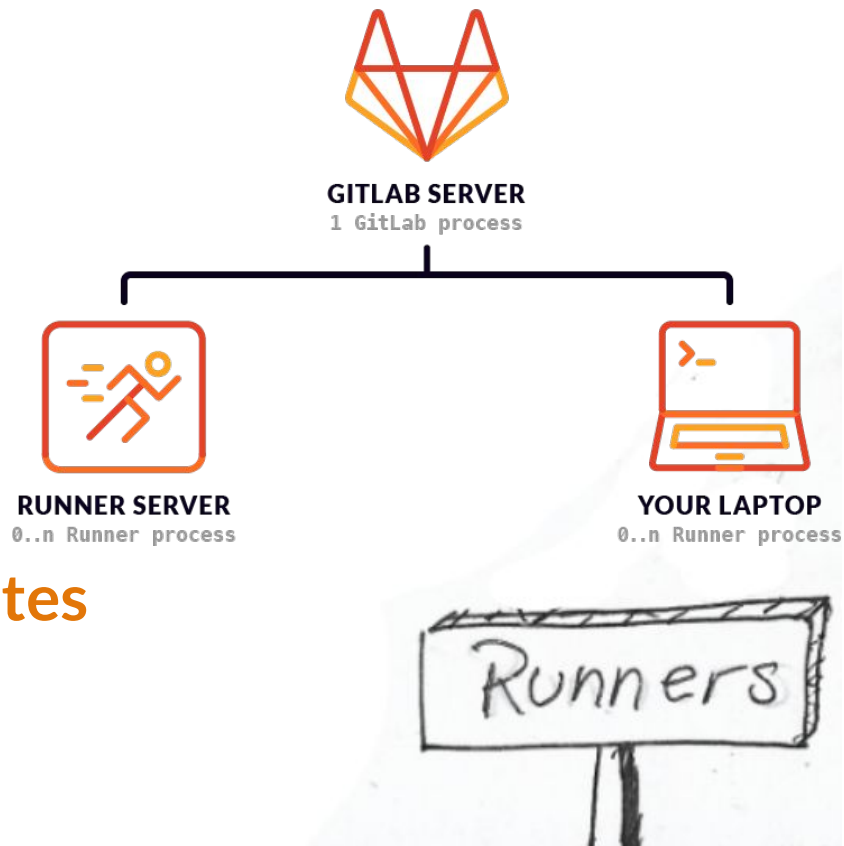

Pipelines and Jobs

GitOps

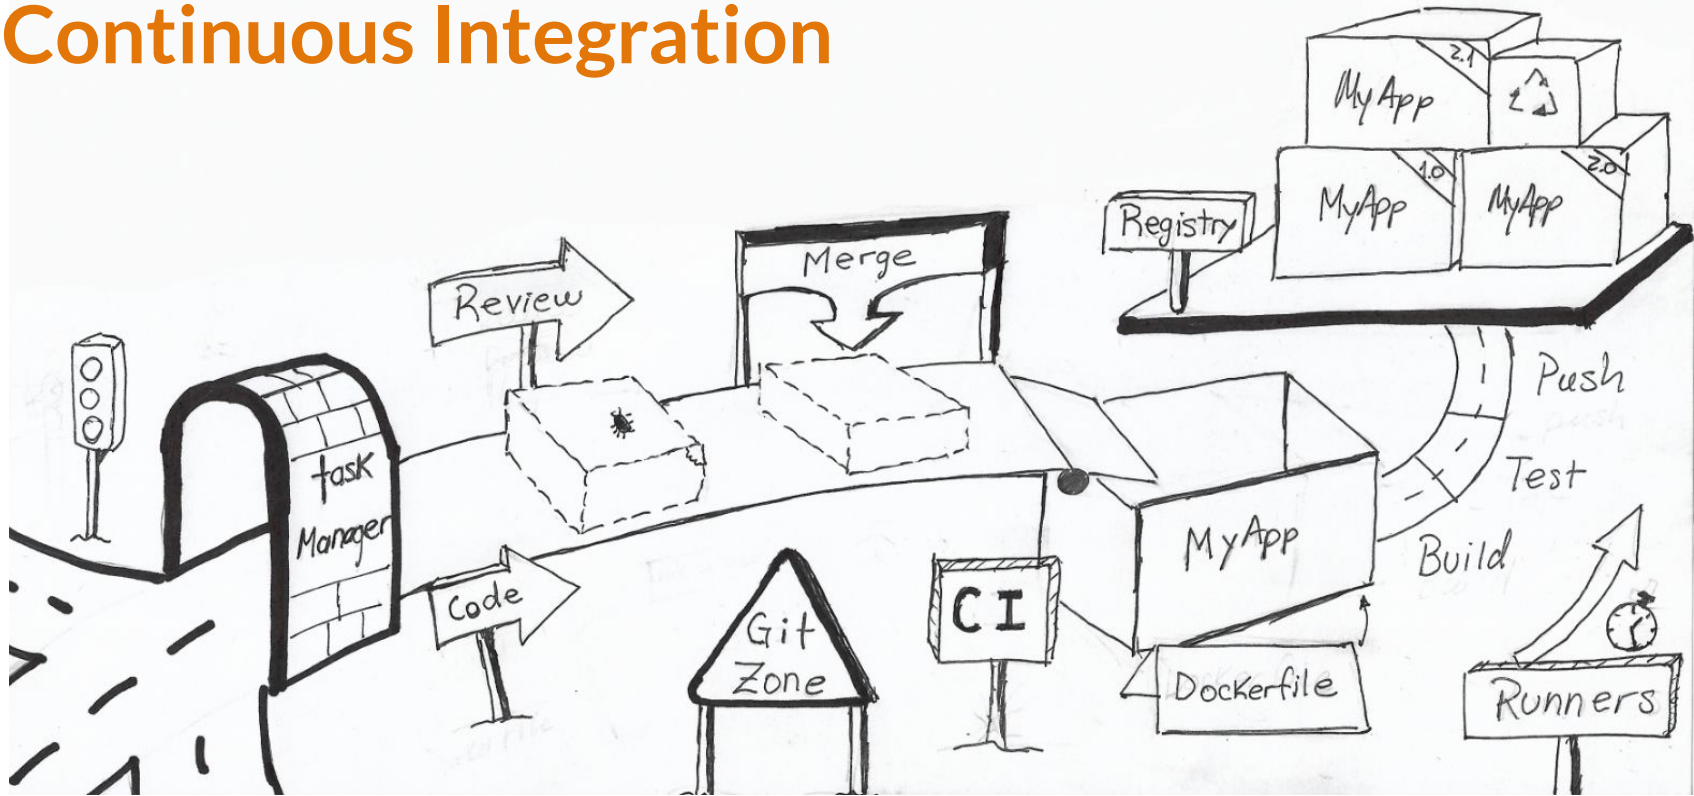

GitLab Runners

- Shared Runners
- Specific Runners
 - automatically on Kubernetes
 - manually

Continuous Integration

Google cloud

AWS cloud

Digital Ocean cloud

Cloud Providers

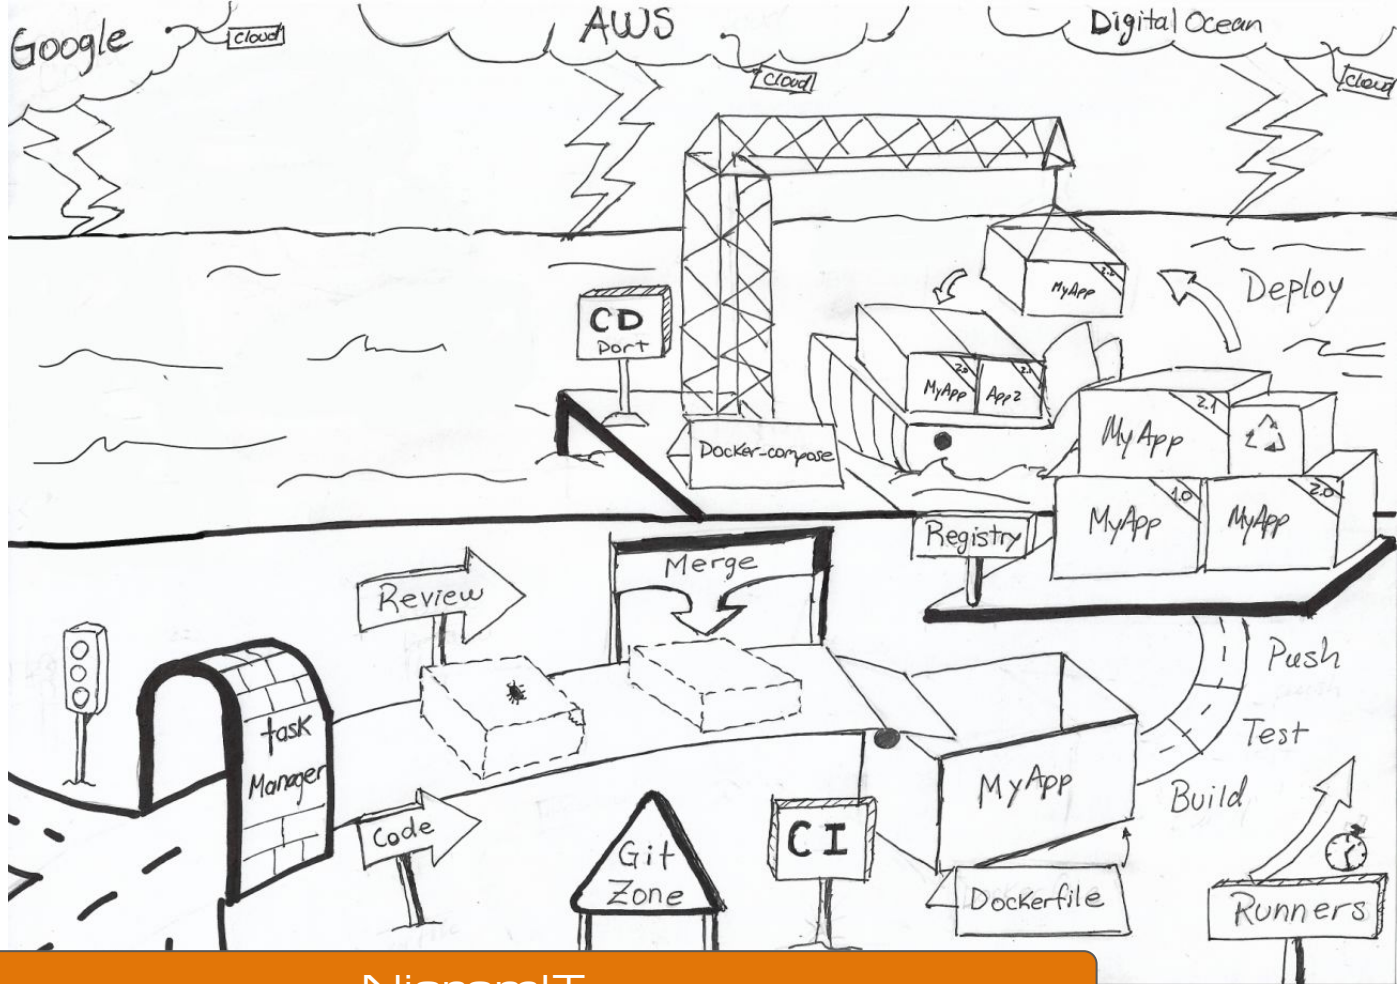

- Public
- Private

- GitLab Runner
- Docker
- Docker-compose

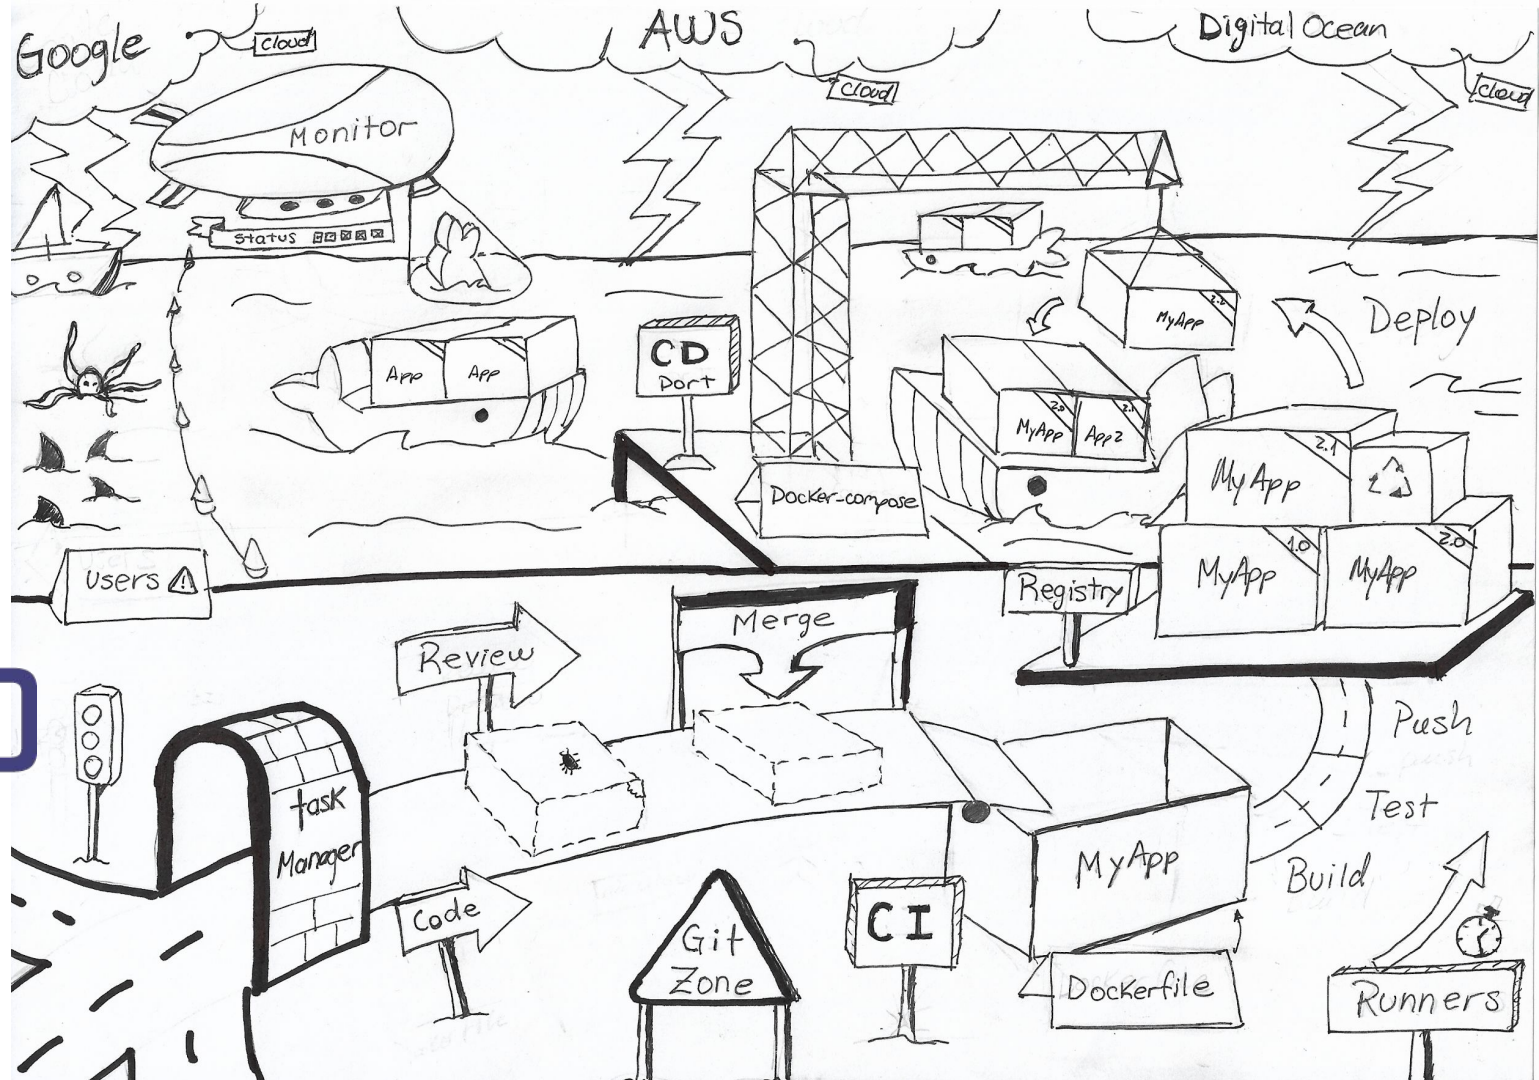

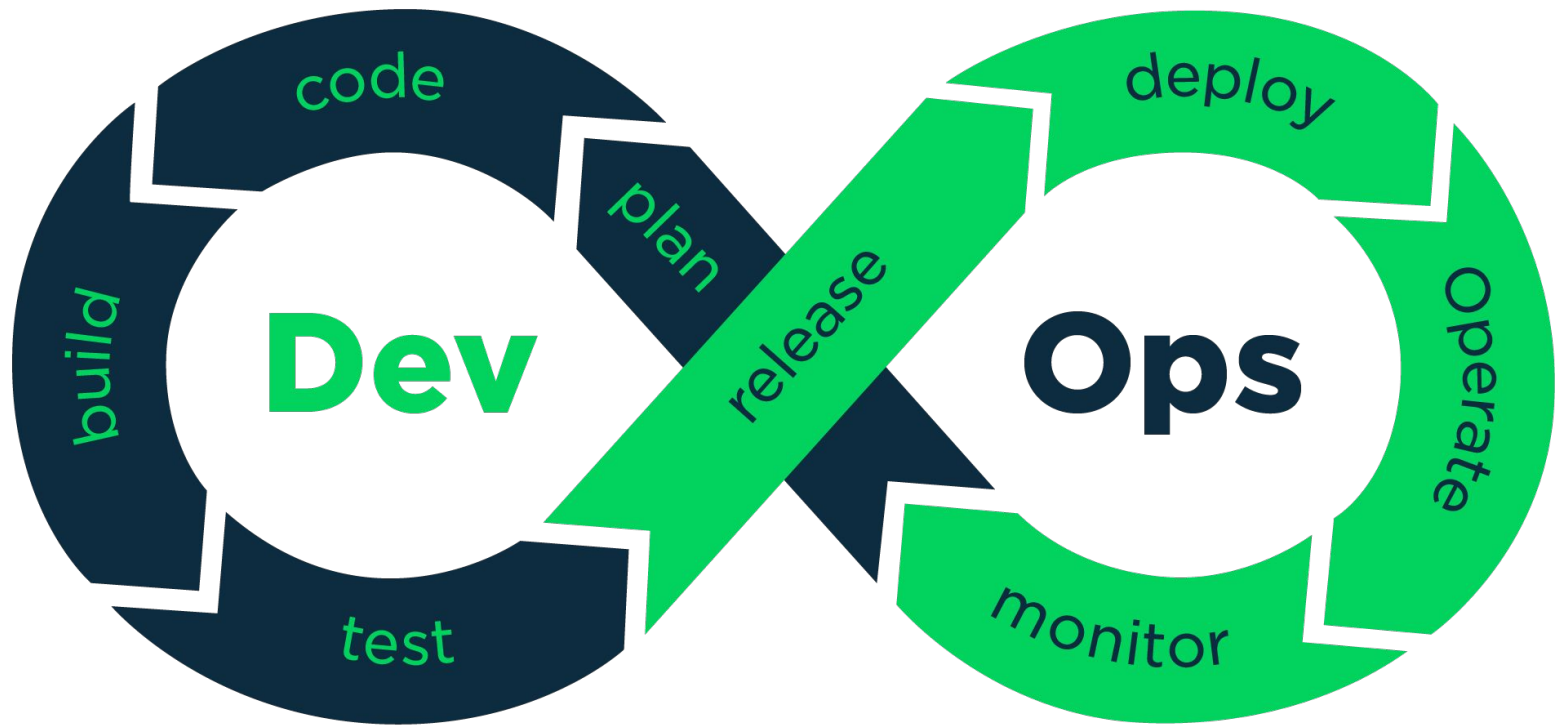

Continuous Delivery

CI/CD

Culture
